

Company

Leonardo MW, Edinburgh, Scotland

Role Description

Principle Obsolescence Manager

Internal Engineering Stream description

Principle Hardware Engineer

Vacancy Number 2102

Job Description

The Component Standardisation group located in Edinburgh requires a Principal Engineer to act as the Obsolescence Team lead for the Captor Radar Integrated Project Team (IPT). The position reporting to the Component Standardisation UK lead also has staff responsibilities. Your main focus will be on the delivery of Obsolescence Management and Component engineering tasks into this IPT in accordance with company engineering processes and procedures which you may be required to assist in keeping current. Attendance at IOM meetings or personal Membership of IOM would be considered a positive factor.

Leonardo - Engineering the future We are an international leader in electronic and information technologies for defence systems, aerospace, data, infrastructures, land security and protection and sustainable 'smart' solutions. We employ 4,000 people across the UK with 2,000 based at the Edinburgh site. In addition to achieving Investors In People accreditation, we also won the Queens Awards for enterprise and international trade. We are entering a period of expansion offering exciting opportunities to work at the forefront of technology. With a large proportion of our engineers having chartered status, you can look forward to working with highly skilled professionals.

Intrinsic Factors

This is an office-based role using display screen equipment; working full time hours which can often be in a demanding environment, with occasional travel throughout the UK and abroad.

Equal Opportunities

The company is an equal opportunities employer and positively encourages applications from suitably qualified and eligible candidates regardless of sex, race, disability, age, sexual orientation, gender reassignment, religion or belief, marital status, or pregnancy and maternity. Decisions about recruitment and selection will be made objectively and without unlawful or unfair discrimination.
