

Through Life Support (TLS), through its training arm, the Obsolescence Management Academy (OMA), is pleased to announce the 2018 schedule for our Obsolescence Management Training courses.

Three Day Practitioner Course

19th to 21st March 2018 or 10th to 12th September 2018, Bristol UK

The course is designed to provide the delegate with an in-depth knowledge of Obsolescence Management

It is for those who are about to embark on an Obsolescence Management strategy, or who require more detailed information on what an Obsolescence Manager needs to know and what duties they should be performing.

Please see [here](#) for more detail on how to book.

IOM Certificate in Obsolescence Management (IOM Associate Grade)

19th to 22nd March 2018 or 10th to 13th September 2018, Bristol UK

The International Institute of Obsolescence Management (IOM) Certificate training course is based upon the IOM Framework which provides the context for education, training & experience requirements at each grade of IOM membership. The four day IOM authorised course is designed for those who are looking to attain Associate IOM (AIOM) level.

Please see [here](#) for more detail on how to book.

Which Course is right for you?

The above courses will run concurrently.

If a delegate does not require an endorsed IOM Certificate, they should attend the three-day course.

A certificate of attendance will be issued by the OMA as evidence of the three-day course completion.

For those who are embarking on professional development under the IOM scheme, an additional fourth day is required. On this fourth day, the delegate will undertake additional training modules, take an exam and embark upon a project that requires to be completed and delivered after the course.

Upon successful completion of all four days (with associated exam and project), the delegate will receive an IOM Certificate at Associate Grade.

We hope you find the above training courses of interest to you. Please feel free to contact us at info@throughlifesupport.com should you wish to discuss any aspect of these courses in more detail, or visit our websites below:
