

## CMCA(UK) News

On the back of recent new contracts and an increasing workload, CMCA(UK) is pleased to announce that it has expanded its newly formed Equipment Lifecycle Support team by three new members in the last two months. The company has also taken on two new apprentices, one in IT and one in Business Support, plus a new member of the Procurement Services team. In addition to our core activities we've been busy launching and marketing our first ever security product, V-Guard, an advanced Under Vehicle Inspection System which we'll be showcasing at the forthcoming Intersec event in Dubai 22nd-24th January. Further details are available at [www.vguarduk.com](http://www.vguarduk.com).

With growth being achieved across all areas of the company, we are looking forward to a prosperous 2017 during which we aim to support even more IOM members who have a requirement for subject matter expertise in Obsolescence Management, Long Term Storage, REACH Management and Procurement Services. Meanwhile, if you'd like to learn more about our capabilities then please contact either [antony.elliott@cmcauk.co.uk](mailto:antony.elliott@cmcauk.co.uk) or [chris.green@cmcauk.co.uk](mailto:chris.green@cmcauk.co.uk).
