

‘Anti-Counterfeiting Forum’ Webinar 2

Thursday 25th March 2021 2.00pm to 3.45pm

Why this webinar?

While many physical face-to-face business events are high risk and have been cancelled in the last nine months, the threat of counterfeit electronic and electrical components in the supply chain remains undiminished. New developments both in terms of emerging threats and new best practice and solutions in the supply chain have continued but the opportunities to learn about them have been limited.

To address that, the Anti-Counterfeiting Forum is organising a series of short webinars, with three presentations in each one including short question and answer sessions.

What’s included?

With an emphasis on current threats and developments, the second webinar in the series will comprise presentations by:

- Helen Barnham, Intellectual Property Office
- Maulin Buch, Retronix
- Leroy Spence, Obso Global

There will be plenty of opportunity for delegates to raise questions during the session and to use the chat facility during presentations.

Fee and terms

£35.00 plus VAT for ECSN, IIOM, EMS Group, IP Crime Group and MoD Counterfeit Avoidance Working Group members and staff of Astute Electronics, netCOMPONENTS and Retronix, and £50.00 plus VAT for non-members.

See over for details of how to book. The webinar will be hosted by Zoom and your link will issued as part of your order confirmation if booking online or sent to you by email if booking by any other method.
