

AllanWebb Online Training – Endorsed by IOM

Allan Webb Ltd has long been a respected supplier of Obsolescence Management training courses applicable across numerous industries. Our team has developed a Blended Learning Portfolio to meet the ever changing needs of our customers. Our range of courses, including a number in Obsolescence Management, are now accessible through face-to-face and web based sessions available throughout 2021 and beyond.

The Allan Webb Online Experience

Our online training platform paves the way for a new interactive and flexible learning experience that can be completed from the comfort of your own home or office environment, whilst taking nothing away from the core principals learned in our classroom based courses:

- Our SMEs will provide live tutelage throughout your course and be available to answer any questions you have.
- Whiteboard functionality will be utilised to assist any visual learners.
- The course structure will still allow for networking opportunities among our students.
- A breakout session functionality will be used to enable group work.
- Examinations can also be completed using the platform.

Online Obsolescence Courses 2021:

Obsolescence Management Practitioner (6 half day sessions)

The course is designed for those who are about to embark on an Obsolescence Management strategy, or those who require more detailed information on what an Obsolescence Manager needs to know and what duties they should be performing.

Obsolescence Management Including IOM Certificate (8 half day sessions)

This course is designed to provide a student with a high level understanding of Obsolescence Management knowledge, understanding and practice in preparation for the Associate IOM examination - which can now also be completed online.
